

National Kids Construction Club Pledge
PO Box 145, Basking Ridge, New Jersey 07920-0145
www.nkcconline.org 908.604.5995

Dear Parent/Grandparent/Caregiver,

The National Kids Construction Club would like your help! Take the NKCC Pledge to teach your child or children basic home safety rules or what we call "Life Skills for the Home." By pledging your support, you will find other skills that the NKCC has not identified, so e-mail them to us at nkcconline@optonline.net!

1. Identify/show how to safely use basic tools from a screwdriver and wrench to a hammer, plunger and crowbar.
2. Identify outside your home anything that could put your child in jeopardy. For example, do not remove or play with flags installed by the utility companies, do not tamper with anyone's mailbox; do not stuff anything up the dryer vents; do not play with outside water spigots; do not throw anything into the sewer system.
3. Identify inside your home anything that could put your child in jeopardy. For example, do not stuff anything down the toilet; clean the dryer vent to avoid fires, never leave burning candles unattended, know how to use your fireplace.
4. Breathe good air by cleaning your furnace, air cleaner and/or humidifier. Reduce use of toxic chemicals; think green, for example, consider using "green" paints when painting.
5. Know how to safely use home appliances, especially space heaters, and all home appliances.
